

Family Physicians Recruitment Program

The City of Kingston

possible
made here.

Kingston is the perfect place for family doctors.

With three different hospitals and pioneering health research facilities, medical innovation coincides with readily available supports to create a successful family medicine practice!

With access to specialists across numerous institutions, including Kingston General Hospital, Hotel Dieu and Providence Care, Kingston provides the perfect opportunity to develop your practice and your skills as a family physician.

Take advantage of the potential offered by an incredible medical network: see Kingston as a place to thrive!

About the Physicians Recruitment Incentive

As of Jan. 2022, new, full-time family physicians moving to Kingston are eligible for a \$100,000 incentive paid out in instalments over 5 years.

To be eligible, physicians can either establish a new practice within the City of Kingston or take over an existing roster of patients from a departing or retiring physician.

Additional supports available

In addition to a financial incentive, Kingston has a Dual Career Support Program that assists partners of relocating physicians in finding employment and connecting with the community.
