| <p>Clinic</p> | <p>Maple Family Health Team</p> <p>We have seven sites; these postings are for:</p> <ul style="list-style-type: none"> ❖ Maple Centre Health Clinic 1036 Princess St., Unit D2, Kingston, ON K7L 1H2 ❖ Rideau Family Medical Centre 235 Gore Road, Kingston, Ontario K7L 0C3 <p>Website: https://maplefht.ca/</p> | |
| <p>Position(s)/ Start</p> | <p>1. One family physician to take over a small stable practice; potential for locum.</p> | <p>April 1, 2022</p> |
| | <p>2. Two full time well-managed practices, with potential for splitting one or both into smaller practices.</p> | <p>Flexible</p> |
| <p>Description</p> | <p>Our amazing Maple FHT has two wonderful turn-key opportunities:</p> <p>1. Maple Centre Health Clinic site has an opportunity with a well-cared for practice (about 780 rostered patients) that I started 13 years ago and am giving it up for family reasons. You could grow this practice or keep it small. The practice is very stable, perhaps slightly younger than the typical practice, but really a variety of all ages. I was able to care for this practice during “school-time hours” in ~24-28 hrs/wk on average. This includes both clinical work and paperwork.</p> <p>This could be an opportunity to locum to start or for a variable length of time if desired; however, preference will be given to someone interested in taking over the practice.</p> <p>2. Rideau Family Medical Centre is a small clinic with two large practices in Kingston East. It is located in a well-established shopping plaza adjacent to a large neighbourhood. The clinic’s highly efficient staff include a nurse practitioner, two registered nurses, two medical secretaries and one office manager. There is ample access to Maple’s resource staff which include mental health counsellors, dietitians, diabetes educators, a respiratory educator and a community service worker. The practices are large, but well-managed, and there is the possibility of splitting one or both into smaller practices if desired.</p> | |
